ART ENGAGE

is a free program for people with dementia.

It engages the viewer using the language of art in conversation, looking at artworks and making art. *Art Engage* allows people with dementia to connect with their world and sense of identity.

Trained gallery Educators and Guides lead the group in discussion, making memories and art.

ART ENGAGE – IMMERSE

is a block of dates for repeat visits available for individuals and groups from care centres.

The aims of this program are:

- to take a person centred care approach, getting to know the person, creating a relationship with the same teacher and guides delivering the program

- to nurture a creative and friendly environment, giving the individual a voice, a sense of purpose and self-worth in a stimulating environment
- to create new memories together. Repeat visits build pleasure for the participants.

How it is delivered:
The same participants attend once per month, in a set of 5 to 6 visits.
