- complying with relevant WHS legislation and other requirements placed upon the organization, or to which the organisation subscribes;
- establishing measurable objectives and targets for WHS to ensure continuous improvement aimed at elimination of work related illness and injury;
- providing appropriate WHS training for employees and others as required;
- provide competent and timely supervision for workers, and others as required;
- the consultation process to ensure all workers and other persons conducting a business or undertaking are included in the decision making processes impacting on workplace health and safety;
- disseminating WHS information to workers and others at the workplace;
- providing financial and personnel resources to ensure a safe workplace and safe work systems, and adequate facilities for the welfare of workers at work; and
