Course Provider.....

As the competent person I have:

1. carried out a thorough inspection of (number) tree/s

.....(species), and

2. determined that either, (circle A or B)

a) the tree/s structure **is** significantly compromised, and therefore poses an imminent and unacceptable risk to life and property, or

b) the tree/s structure **is not** significantly compromised, and therefore does not pose an imminent a risk to life or property.

Do not proceed requires a Tree Permit Application

Imminent Risk to Human Life or Property

3. assessed each tree for hollows or other likely habitat, and either (circle a or b below):
 - a) found no evidence, or
 - b) in the case of 2 a) above, arranged for local wildlife group (e.g., Wires) to attend during removal, and
4. in the case of 2 a), only removed tree/s where their structure was significantly compromised, and there was no practical alternative to retain them, and
5. in the case of 2 a) provided with this document:
 - a documented tree inspection, including a detailed tree risk assessment in accordance with industry best practice tree condition assessment methodology, and
 - supporting evidence, which is to include clear and relevant photographs of the tree(s), any defects, failed sections, interactions with structures and potential targets, and
 - a review of options for managing risk other than by tree removal, and
 - a summary of the risk abatement options and implications.
6. provide a site plan below to show where the tree/s location in relation to the dwellings and boundaries.

Site Plan with Tree/s located in relation to structures include where street is located

The following information is provided to support this form at the above address. Relevant information regarding disclaimers, photos, risk or hazard assessment, and any other evidence to support the application, is attached to this form.
